## NOVA SCOTIA RESEARCH AND DEVELOPMENT TAX CREDIT (2002 and later taxation years)

Name of corporation	Business Number		Та	xatior	year-en	d	
			Year		Month	, [	Day
		1 1		1			1

- Use this schedule if you are a corporation with a permanent establishment in Nova Scotia that has made eligible expenditures for scientific research to be carried out in the province and you want to:
  - calculate a refundable Nova Scotia research and development (R&D) tax credit for the current taxation year;
  - calculate a recapture of the Nova Scotia R&D tax credit; or
  - renounce the credit. To renounce the credit, include all current-year credits; partial renouncements are not allowed. You have to file the renouncement on or before the filing date of the T2 Corporation Income Tax Return.
- An eligible expenditure is one that meets the definition in subsection 41(1) of the Nova Scotia Income Tax Act.
- The credit earned in the current taxation year is applied to reduce Nova Scotia income tax otherwise payable for the year, as well as amounts owing
  under the federal and provincial income tax acts, the Canada Pension Plan, and the Employment Insurance Act. Any remaining balance will be
  refunded.
- Only corporations that are not exempt from tax under section 149 of the federal Income Tax Act can get a refund of the credit.
- You can also use this schedule to show a credit allocated to a corporation that is a member of a partnership or a credit allocated to a corporation that
  is a beneficiary under a trust.
- File this schedule with your T2 return for the taxation year in which the credit is claimed or recaptured or a refund is requested.

## Part 2 - Calculation of a recapture of Nova Scotia R&D tax credit -

Calculation 1 – If you meet all the above conditions

Amount of Nova Scotia R&D tax credit you

3

Calculation 2 is continued on page 3.

You will have a recapture of Nova Scotia R&D tax credit in a year when you meet all the following conditions:

- · you acquired a particular property in the current year or in any of the four preceding taxation years;
- you claimed the cost of the particular property as an eligible expenditure for the Nova Scotia R&D tax credit;
- the cost of the particular property was included in computing your tax credit at the end of the taxation year or was subject to an agreement made under subsection 127(13) of the federal *Income Tax Act* to transfer qualified expenditures; and
- you disposed of the particular property or converted it to commercial use after March 31, 2002. You also meet this condition if you disposed of or converted to commercial use a property which incorporates the property previously referred to.

Note: The recapture does not apply if you disposed of the property to a non-arm's-length purchaser who intended to use it all or substantially all for R&D. When the purchaser later sells or converts the property to commercial use, the recapture rules will apply to the purchaser based on the historical Nova Scotia R&D tax credit rate of the original user.

You have to report the recapture on Schedule 5 for the year in which you disposed of the property or converted it to commercial use. If the corporation is a member of a partnership, report its share of the recapture.

If you have more than one disposition for calculations 1 and 2, complete the columns for each disposition for which a recapture applies, using the calculation formats below.

Amount calculated using the Nova Scotia R&D

Amount from column 700 or 710,

## originally calculated for the particular tax credit rate at the date of acquisition whichever is less property you acquired, or the original user's (or the original user's date of acquisition) tax credit where you acquired the property on either the proceeds of disposition from a non-arm's-length party, as described (if sold in an arm's-length transaction) in the note above or the fair market value of the property (in any other case) 700 710 2 3 Subtotal \_\_\_\_\_ Enter amount G on line P on page 3. Calculation 2 - Only if you acquired all or part of the eligible expenditure from another person under an agreement described in subsection 127(13) of the federal Income Tax Act. Otherwise, enter nil at line N on page 3. н ı J The proceeds of disposition of the property The rate the transferee used to determine The amount, if any, its Nova Scotia R&D tax credit for eligible if you dispose of it to a person at arm's length; already provided for in calculation 1 expenditures under a or, in any other case. (This allows for the situation where only subsection 127(13) agreement the fair market value of the property at part of the cost of a property is transferred conversion or disposition under a subsection 127(13) agreement .) 720 730 2
