## **Manitoba Manufacturing Investment Tax Credit** (2014 and later tax years)

Schedule 381 Code 1401 Protected B when completed

| Corporation's name | Business number | Tax year-end |           |  |
|--------------------|-----------------|--------------|-----------|--|
|                    |                 | Year         | Month Day |  |
|                    |                 |              |           |  |

- If you are a corporation that has acquired qualified property before 2018, or that has acquired equipment used to produce or conserve energy, mainly to manufacture or process goods for sale or lease, or you are a corporation that has unused Manitoba manufacturing investment tax credit at the end of the previous year, use this schedule to claim a 10% tax credit against Manitoba corporation income tax payable.
- The tax credit will be first applied to reduce the Manitoba corporation income tax payable and any remaining amount earned in this tax year may be refunded. The maximum refundable part of this credit is 70% of earned credits for qualified property acquired after December 31, 2007 and 80% of earned credits for qualified property acquired after June 30, 2013. Any unused investment tax credit can be carried forward up to 10 years or carried back to any of the 3 previous years.
- A corporation may renounce its entitlement to all or part of its manufacturing investment tax credit earned in the current tax year. If the renunciation is filed by the filing due date for the year, the corporation is deemed to never have received, been entitled to receive or had a reasonable expectation of receiving the amount. If the renunciation is filed within a 365-day period immediately following the filing-due date, the corporation is deemed to never have received, been entitled to receive or had a reasonable expectation of receiving the amount for all purposes except for paragraph 37(1)(d) and subsections 127(18) to (20) of the federal Income Tax Act.
- Manufacturing or processing is defined in subsection 125.1(3) of the federal tax act and includes qualified activities as defined in section 5202 of the federal Income Tax Regulations.
- · Qualified property is new and used prescribed buildings, machinery, and equipment used by the corporation in Manitoba mainly to manufacture or process goods for sale or lease. Qualified property includes Class 43.1 or 43.2 property that the corporation acquired after April 22, 2003, and is used by the corporation in Manitoba to produce energy, or to conserve or reduce the need to acquire energy. Qualified property includes property leased for the same purposes, to a lessee who is not exempt from tax under section 149 of the federal Income Tax Act.
- Property acquired has to be "available for use" by the corporation, as determined under subsections 13(27) and 13(28) of the federal Income Tax Act, not including the time just before the disposition of the property by the corporation as per paragraphs 13(27)(c) and 13(28)(d).
- The Manitoba manufacturing investment tax credit (MMITC) is considered government assistance under paragraph 12(1)(x) of the federal Income Tax Act and must be included in income in the tax year the credit is received. The MMITC is not considered government assistance under section 7.2 of the Manitoba Income Tax Act for the purposes of calculating the credit itself.
- To claim this credit, you must file this schedule no later than one year after the filing due date for your T2 Corporation Income Tax Return for the tax year in which the property was acquired. File a completed copy of this schedule with your T2 Corporation Income Tax Return.
