- You can claim a Manitoba odour-control tax credit under section 10.2 of *Income Tax Act* (Manitoba) if the corporation:
 - has a permanent establishment in Manitoba; and
 - had eligible expenditures in the current tax year or unused credit from a prior tax year.

- Eligible expenditures refer to the capital cost of a depreciable capital property acquired under the following conditions:
 - it was acquired by the corporation after April 19, 2004, and before 2018 to prevent, eliminate, or significantly reduce odour that arises from organic waste used or created in the course of the corporation's business in Manitoba;
 - the property became available for use by the corporation in the tax year and before 2018;
 - the property was not used or acquired for any use by anyone before it was acquired by the corporation;
 - it is an item of eligible equipment (straw cannons, sewage lagoon covers and seals, biofiltering equipment, a storage tank or container for organic waste, spraying equipment for aerobic or anaerobic treatment of organic waste, a soil injector for a manure spreader), or is declared by the minister to be a qualifying property; and
 - it is property that is used in a process that involves aerobic or anaerobic treatment, composting, drying or dehydration, or fermentation of organic waste.

- Use this schedule to:
 - claim the credit to reduce Manitoba income tax otherwise payable in the current tax year;
 - claim the refundable credit, if the corporation is carrying on the business of farming;
 - calculate the credit you have available to carry forward;
 - request a carryback of the credit;
 - transfer a credit after an amalgamation or the wind-up of a subsidiary, as described in subsections 87(1) and 88(1) of the federal *Income Tax Act*;
 - calculate the current-year credit earned from eligible expenditures allocated from a trust or a partnership; or
 - renounce the current-year credit in whole or in part.

- An eligible expenditure must be identified on this schedule and filed no later than 12 months after the *T2 Corporation Income Tax Return* is due for the tax year in which the expenditure was incurred.

- For non-agricultural corporations, an unused credit earned in the current tax year is not refundable. The unused credit can be carried forward for 10 tax years and carried back 3 tax years.

- Agricultural corporations are eligible for a refundable part of the odour-control tax credit. The refundable credit is the amount of credit available for the current year that is greater than the Manitoba tax otherwise payable for the current year.

- Include a completed copy of this schedule with your T2 return.
